

National Park Service, Interior

§ 72.15

(5) How park and recreation resources will be targeted in neighborhoods where other neighborhood revitalization efforts are occurring;

(6) How the plan seeks to restore outstanding or unique structures, landscapes, or similar features in parks of historical or architectural significance;

(7) Local commitments to innovative and cost-effective programs and projects on the neighborhood level which augment recovery of park and recreation systems;

(8) How the plan will be intergrated with other Federally assisted projects to maximize recreation opportunities;

(9) How the plan will convert for recreation use, derelict and other public lands not designated for recreation; and

(10) Inducements to encourage the private sector to provide neighborhood park and recreation facilities and programs.

(11) How the plan will seek to preserve, restore and develop waterfront areas for recreation and open space.

If any of the above concerns are not of significance within a locality preparing the Recovery Action Program due to lack of the physical attributes described in the above eleven (11) items, the Action Plan should indicate why such strategies are not appropriate. Most communities will also have their own special concerns and should develop strategies to address them. These should accompany the strategies discussed above and provide a focus for specific recommendations.

(c) *Recommendations.* Recommendations for improvement of the park and recreation system should be discussed. Each recommendation or group of recommendations should be accompanied by a discussion of the techniques the local government will use to implement the recommendations. Reference should be made to how the recommendations relate to deficiencies, needs, and opportunities identified in previous sections of the Action Program. A brief physical development plan for the entire park and recreation system should be included. This can be accomplished with a map which indicates where existing facilities and activities occur as well as where future developments are to occur. Particular

reference shall be made to populations served and indicated deficiencies.

(d) *Program Priorities and Implementation Schedule.* A statement of system priorities and a schedule for implementation shall be included. These priorities, together with justifying objectives and strategies for implementation shall be presented. Priorities presented will be an important factor in the evaluation and approval of requests for UPARR funding. Active and continued citizen participation is necessary throughout the process. Specific projects to be undertaken and the programs to be improved, expanded, introduced, or eliminated through rehabilitation, physical, service, management, and coordination actions should be discussed. A clear assignment of agency responsibility and an estimate of the costs of implementation should accompany these priorities.

(e) *Evaluation and Updating of Action Program.* This section should outline a specific program for annual monitoring, evaluating, and updating of the complete Action Program, including both improvements needed in the Assessment and the Action Plan. Citizen involvement is essential in the evaluation and monitoring of the Action Program. Copies of approved Action Programs must be readily available to the public to insure adequate opportunities for citizen review and comment.

§ 72.14 [Reserved]

§ 72.15 Preliminary Action Program.

During an initial interim period, the Action Program requirements, as described in §§ 72.11, 72.12 and 72.13 may be satisfied by local governments' submission of a Preliminary Action Program. The initial interim period shall end on January 1, 1981. Communities are required to submit four (4) copies of the Preliminary Action Program.

(Sec. 1007(a) and (b) of Title X National Parks and Recreation Act of 1978, Pub. L. 95-625, (16 U.S.C. 2506); sec. 2 of Reorganization Plan No. 3 of 1950 (34 Stat. 1262))
